

>battery-powered control with 2G/3G communication for demanding enviroment<

## ETM-Green

ETM-Green is a battery-powered rugged device, which is used for measuring and control of remote areas or installations without access to mains power or fixed communication line.

- › More than 5 years battery life time\*
- › Suitable for outdoor environments
- › Integrated 2G/3G wireless modem
- › Pre-configured for the most common sensor types
- › Easy access to logged measurements via WEB interface
- › Delivered with battery, antenna, SIM antenna and M12 connector

>connecting things<

# ETM-Green

› More than 5 years battery capacity\*

› IP67 casing with industrial rated M12 connectors

› 6 in/outputs with sensor power supply

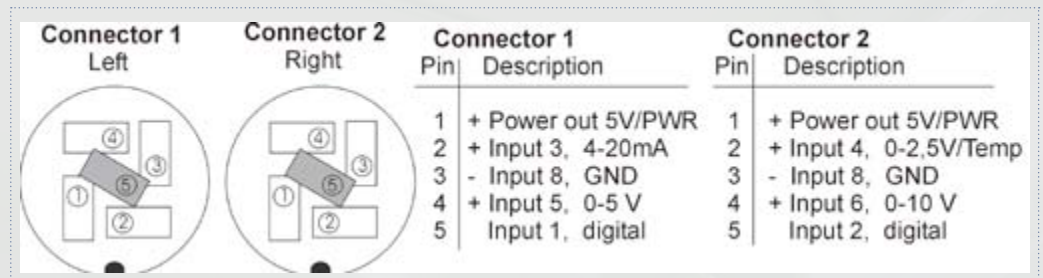

› Integrated exchangeable LI-SOCI battery

› 2G/3G for best GSM coverag

The ETM-Green comes with SIM-card and GSM subscription. Just connect the sensors, turn on the power and log into WEB backoffice to access the measured data from anywhere.

Model	ETM-Green 2G	ETM-Green 3G
Part no:	71211	71212
GSM	2G	2G and 3G
	GSM: 850/900/1800/1900 MHz	UMTS: 800/850/900/1900/2100MHz GSM: 850/900/1800/1900 MHz
Antenna	GSM: FMA with stub antenna	GSM: FMA with stub antenna
Connections	2 pre-configured M12 connectors with following interfaces: 2 digital in/outputs (requere drivers) and pulse measurements 1 analoge 4-20 mA input 1 analoge 0-2,5 V input 1 analoge 0-5 V input 1 analoge 0-10 V input 1 stabilised 5V or battery voltage (10.8 V) output (for sensor feeding)	
Operation temp.	-30°C to +70°C	
Weight	970 g	
Size	238 mm x 141 mm x 670 mm	
Casing	Ventilated IP67 casing in Polycarbonate with Nitril-sealing and hinges in stainless steel.	
Accessories	Temperature sensor (71207), wall/pole bracket in stainless steel (71208), M12 connector (71216), battery (20602), variety of GSM/GPS antennas	

\* More than 5 years battery life time when sending via 2G/3G every 24 hour.
